Rhoads Scholar Resource Guide 2004 - 2005

Rhoads Scholar Program

The Madisonville Community College Rhoads Scholar Program provides a way for Madisonville Community College to work more closely with the public schools in the service area. By working, together the public schools and the college can continue to help raise the education level of the region.

The faculty and staff members working with the program are dedicated to the educational communities they serve.

The Rhoads Scholar Program team will help the schools meet their goals by providing assistance and information to students, faculty, staff, and parents regarding careers, college admissions, financial aid information, adult education, and more. Faculty and staff members are available to assist by visiting their schools, conducting workshops and activities for students and their parents throughout the school year.

The goals of the Rhoads Scholar Program are:

- Acquaint parents, students, and teachers with career options available through college
- Create expectations that 66 percent of students will go to college
- Provide information on criteria for going to college (i.e. resources available, financial aid, career counseling)
- Encourage parents to enroll in ACE² to upgrade job skills
- Assist school with reading programs, science fairs, etc.
- Enhance the image of quality education in the community
